Connecting the world to the stories that matter.

We are a global platform connecting photojournalists, documentary photographers and our worldwide audiences through trustworthy storytelling.

World Press Photo was founded in 1955 when a group of Dutch photographers organized a contest ("World Press Photo") to expose their work to an international audience. Since then, our mission has expanded. Our contest has grown into one of the world's most prestigious competitions, rewarding the best in photojournalism and documentary photography from around the world. Through our successful worldwide exhibition program, we present to millions of people the stories that matter.
